Second Author, College of Business, University of World Knowledge, 4000 Main Street, San Diego, CA 90011, 909-555-1234, yourname@uwk.edu

ABSTRACT

Introduce the paper with an abstract of approximately 100 words, using 12-point Times New Roman font. Begin with the heading “ABSTRACT” in bold caps and centered above the single-spaced abstract text, as shown above. Your paper **must be submitted as a PDF file** through the online submission system provided for the conference. The recommended paper size is ‘letter’ size paper (i.e., 8.5 inches [21.59 centimeters] by 11 inches [27.94 centimeters]). The recommended setting for the top, left, and right margins is 0.75 inches (1.9 centimeters). The bottom margin should be set at 1.0 inch (2.54 centimeters).

Keywords: You may include up to five keywords below your abstract.

INTRODUCTION

Paper Title

The title should be typed using 14-point Times New Roman font, bold type, **ALL CAPS**, single-spaced, and centered across the top of the first page, as illustrated above.

Authors

Author names, affiliations, addresses, phone numbers, and email addresses should appear below the title in 12-point Times New Roman font, italic type, as illustrated above.

Footer

Include a footer with the conference information as illustrated at the bottom of each page.

Headings

All headings should be in bold type.

All first-level headings should be in bold type using 12-point Times New Roman font, and should be centered and set in caps, as illustrated above in “INTRODUCTION”.

Second-level headings should be in bold type, flush left with initial caps, as illustrated herein. Do not use headings other than these two types.

One line space should separate headings from the preceding and following text, as shown here.

Body

Follow the abstract with a first-level heading that introduces the body of the paper.

All paragraphs should begin flush left (no paragraph indent) and also be right (fully) justified. Single-space the body of the paper. Use 12-point Times New Roman font throughout. Paragraphs within a section should be separated by one line space.

Page numbers should be centered at the bottom of each page.

Figures and Tables

Figures and tables should be placed as close as possible to where they are cited. First-level headings should state the table or figure number and may be followed by second-level subheadings. Avoid heavy solids or graphics with dark backgrounds. Simple line drawings or graphics are encouraged. All tables and images should be imbedded into the file and sized appropriately.

Calling References

In calling references in the body of the text, use author name(s), year, and, for direct quotes, a page number. For items without specific authors, use a standard method of listing your references.

Footnotes

The use of footnotes is discouraged.

Copyright

The copyright for all Proceedings submissions remains with the author(s) (but may be considered published by some journals if appearing in Proceedings in the full version). Authors shall not submit anything already copyrighted or in violation of any existing copyright restrictions. Authors assume full responsibility for what is submitted.

Authors of full papers can choose to submit to WDSI conference Proceedings in the form of an abstract, a shortened form of a paper, or a full paper.

Page Limits and File Size

The suggested Proceedings page limit for full paper submissions is 15 pages including everything. The Proceedings page limit for abstract submissions is 2 pages.

The pdf file submission should be no larger than 5 MB.

Equations

All equations should be placed on separate lines and be numbered consecutively, with the equation numbers placed within parentheses and aligned against the right margin.

$$R_i = f(X_i) \quad (1)$$

APPENDIX

Any appendices should immediately follow the body of the paper (using the first-level heading "APPENDIX") and precede the references. If there is more than one appendix, number each one consecutively.

REFERENCES

References should be listed at the end of the paper alphabetically and single-spaced within each reference but with a space in between references, as illustrated.
